| | 3000 | 700 | 855 | 450 |

details

Material: Ductile iron legs; 3 tropical wooden slats of 190x40mm and one slat of 130x40mm. Stainless steel screws.

Finish: The legs are treated with a process which guarantees a high resistance to the corrosion. Grey forge colour finished. The slats are treated with a preventive product and fungicide, insecticide and water proofed. Natural colour finished.

Recommended Anchorage: M10 fixing bolts for surface mounting, depending on the surface and the project.

Optional: FSC certified tropical wood can be used if desired

notes
