product specification

code **YPL583**

description **Zirconium Powder Coated
Bollard**

details

This is part of our popular Zirconium range polished to a Satin finish. Produced with a powder coated band in this case black and a Mitered top (Other tops are available in this range). Ideal for a whole range of applications where Coloured decoration is required. Any variation is available, any colours and any design of banding. Manufactured in Stainless Steel in Grade 304, the bollard benefits from the clean look of Stainless Steel and is very low maintenance.

notes
